

Aayush Singh

Mumbai, Maharashtra, India

+91 8369419309 — aayushsingh9004@gmail.com — GitHub — LinkedIn

Professional Summary

Information Technology student with strong foundations in Python, SQL, Data Structures & Algorithms, and Cloud Computing. Experienced in building ETL data pipelines using AWS services including S3, Glue, Athena, and QuickSight. Skilled in data ingestion, transformation, database management, and backend development. Seeking Data Engineering, Cloud Engineering, and AI/ML internship opportunities.

Education

Shah & Anchor Kutchhi Engineering College, Mumbai

Expected 2027

Bachelor of Technology (B.Tech) in Information Technology

CGPA: 8.6+

Technical Skills

Languages	Python, Java, SQL
Data Engineering	ETL/ELT Pipelines, Data Ingestion, Data Transformation, Data Warehousing
Databases	MongoDB, MySQL, DynamoDB
Cloud	AWS S3, Glue, Athena, Lambda, API Gateway, SNS
Analytics	Pandas, NumPy, QuickSight
Backend	Spring Boot, REST APIs
Core Concepts	Data Structures & Algorithms, DBMS
Tools	Git, GitHub, Postman

Relevant Coursework

Data Structures & Algorithms • Database Management Systems • Object-Oriented Programming • Cloud Computing • Data Warehousing Fundamentals

Projects

YouTube Analytics Data Pipeline

Python, SQL, AWS

- Designed and implemented an end-to-end ETL pipeline for processing YouTube trending datasets.
- Automated data ingestion and transformation using AWS Glue and Python.
- Stored raw and processed datasets in Amazon S3 using a data lake architecture.
- Queried transformed data using AWS Athena.
- Built interactive dashboards in AWS QuickSight for business insights.

AssignHub

Node.js, Express.js, AWS

- Built a serverless assignment submission platform using AWS services.
- Implemented file uploads through Amazon S3 and stored metadata in DynamoDB.
- Integrated Lambda, API Gateway, and SNS for automated processing and notifications.

Job Portal Backend Application

Java, Spring Boot, MongoDB

- Developed a backend job portal supporting recruiter and job-seeker workflows.
- Implemented authentication, job posting, application tracking, and user management.
- Designed RESTful APIs for scalable communication and data handling.

Certifications

- Palo Alto Networks Virtual Internship
- Fundamentals of Cloud Security
- Cybersecurity Fundamentals
- Network Security Fundamentals
